7:00 - 10:00 pm

Presents Documentary Movie Screening...

with filmmaker Austin Vickers

This film questions the very nature of reality, and through an examination of our perceptions, beliefs and illusions, makes you both judge and jury in what will be the most important trial you will ever witness. This must-see psychological documentary includes, as expert witnesses, some of the nation's leading thinkers in the fields of neuroscience, biochemistry, psychology, quantum physics, and consciousness theory, including: *Dr. Thomas Moore, Dr. Candace Pert, Debbie Ford, Dr. Joe Dispenza, Dr. Robert Jahn, Dr. Peter Senge, Brenda Dunne, and Dr. Michael Vandermark.*

Local film writer and producer *Austin Vickers* will be on hand this evening to present the film and to conduct a discussion on the science and power of imagination followed by an audience Q&A session. This film is soon to be released on a national level, so this is an amazing opportunity to spend an intimate evening with Austin that you don't want to miss!

- Learn how great leaders **perceive and imagine** differently than we do
- Understand what science can teach you about the **power of imagination**
- Learn how the patterns of your thinking may be **limiting your life**
- **Reconnect** with the power of hope, imagination and love
- Learn what your priorities should be to **develop greater imagination**
